

# 煤矿井下带式输送机

Coal Mine Belt Conveyor

## 产品用途及特点：

井下带式输送机主要适用于井下一米至五米巷道内各种带式输送机，用以运输物料，具有结构简单、体积小、重量轻、安装方便、使用可靠、维护简单、使用寿命长等特点。

在设计、制造方面有积累了丰富的经验。近几年，我公司为神华、鲁能、内蒙、山西等多家煤矿企业设计、制造了大量的井下用带式输送机。

我公司产品已获得了国家矿用产品安全标志中心颁发的《矿用产品安全标志证书》。

重大装备 高端成套

High Integrated Technology Key Equipment and Turn-Key Service

## Application and Features:

The coal mine belt conveyors are mainly composed of main shaft, big lane and trough conveyors, all of which are used to lift material from underground to ground. Because of its limited operating environment, the conveyor requires higher standards in design, manufacturing and

experience in this sector, NHI has designed and

number of coal mine belt conveyors for Shenhua,

mine corporations in Inner Mongolia and Shanxi

in recent years. NHI has

installation, with incrt  
manufactured a great  
Luneng, and other coal  
in recent years. NHI has
